## Introduction

Money Maker is developed using the latest technologies to give optimum performance for trading on NSE Cash, NSE Futures & Options, NSE Currency Derivatives, BSE Cash, BSE Derivatives, BSE Currency Derivatives, MCX and NCDEX segments. The robust architecture supports unlimited scripts watch without hampering performance. Money Maker is developed keeping in mind the ultimate user's requirements with value additions such as world indexes, radar watch, charting, column & row freezing facilities, nested lay-outs, remainders, direct links with various exchanges, SEBI etc. Money Maker versions are customized for Individual users and CTCL users.

## Unique features Money Maker

### Price View

---

- Facility to freeze row and columns.
- LTP and trend color according to previous day's close.
- Columns adding, deleting, shifting etc. made easy.
- Color selection for selection bar.
- Row height can be increased or decreased.
- Auto adjusts of price View in the available window.
- Corporate action information with Ex-Date available in Price View in separate column.
- Facility to open a new price view for the scrips in the specific index. Means if you wish to make Price View with all constituents of NIFTY, BANKNIFTY, CNX IT, CNX Midcap etc. is possible.
- Price View's all settings can be set as default settings so as when you open any new price view it will open with the default settings.( right click on price view and select "Set as default Style".
- If you have more than one price views you can import settings of one price view to the other price view. (Right click on price view and select "Import Style from" and then select the name of the price view you want to import settings from.
- Current data of the price view can be copied and pasted to any other places like excel. (Right click on price view –select "Copy to Clipboard" and then paste it into excel.
- You can put as many reminders as you wish. (Tools/reminders or in price view right click and select reminders) This is the most useful tool for giving highly personalized service to clients.

### Orders and Trades

---

- Client name and mobile no's in order entry screen as help.
- MBP/Best 5 i.e. F5/F6 window can be opened automatically at the time of order entry / modification.(Tools/Preferences/Order> Select the option you want)
- Failed orders (Orders which you placed and rejected) in separate window. (Shift + F3 and also in F10 (Messages)
- Order Book with trade book for specific order.
- If your order is out of DPR, it will show message at the time of order entry.

- Order history on double click on order or trade.
- BSE trade modification made easy- needs to be done once for multiple trades of single order and net position also gets updated accordingly.
- NSE Cash market trades can also be modified on screen during closing session.
- Bulk/Cashed Orders:
  - Using this facility you can create batch of orders that can be placed by the single click during the live market.
  - Batch orders can be created using the facility “Cashed Orders” in the money maker.
  - Batch can be saved for the future use or reference.
  - Batch can also be created using spreadsheet or worksheets in ‘CSV’ format in the given style and the same can be imported in the Cashed orders.
  - To create batch user need not to remain logged in to the server. i.e. the batch can be created offline also.
  - Before placing the batch orders to the exchange it can be verified for the basic order parameters like valid Scrip, valid Client, valid price etc.

## Price View

---

Price Views are your own defined workspaces. You can open as many as Price Views as you require. Price View based on Index can be opened simply by moving cursor to that index & clicking Right side button of mouse which will open a new window, go to Create New Price View and select. This will open Price View of all the Scrips covered under that Index. You may keep different Price Views under our Nested Layout. Price view enables viewing detail market information of equities and derivatives on a continuous basis. You can freeze column/columns and row/rows as per your requirement. For ex. You can keep freeze Symbol column than all other columns to the right can be navigated keeping constant "Symbol" column. You can also freeze certain rows wherein information appearing in frozen rows will always be available for viewing. You can open Price Views based on individual clients. Otherwise separate views can be kept for covering scrips of NSE Cash, NSE derivatives, BSE Cash, BSE Derivatives as per user's preferences.

Features:

1. Track Market on Real Time basis.
2. Place Buy & Sell orders.
3. Modify orders placed.
4. View Net Position.
5. Access Corporate Action of any Individual Scrip.
- 6.

Working with Price Views:

- ❖ Click **File > New** or press **Ctrl +N** or click toolbar icon ( ). The Price View window is displayed with the following details:

## View

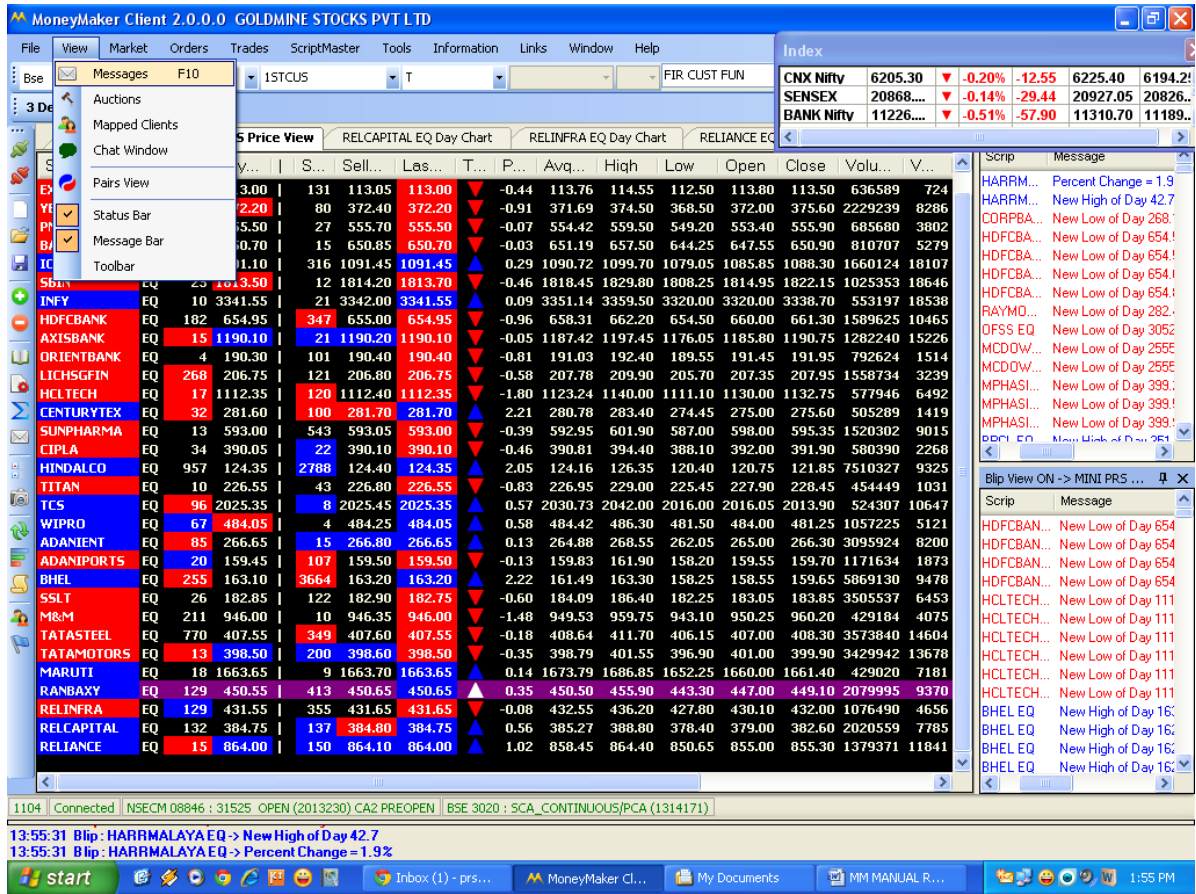

Money Maker displays the following information under heading View:

- Messages
- Auctions
- Mapped Clients
- Chat Window
- Pairs View
- Status Bar
- Message Bar
- Toolbar

The screenshot displays the MoneyMaker Client 2.0.0.0 interface for GOLDMINE STOCKS PVT LTD. The main window shows a stock market data table with columns for various metrics. A menu is open over the table, listing options like Messages, Auctions, Mapped Clients, Chat Window, Pairs View, Status Bar, Message Bar, and Toolbar. An Index window is also visible, showing market indices like CNX Nifty, SENSEX, and BANK Nifty. The status bar at the bottom shows connection details and system time.

The details are sorted in order of percentage change for various instrument types. A filter facility is also provided to define minimum and maximum range of last traded price to see list of gainer or losers within that range. You can also view Index based script movements by selecting Index. Also shows 52W High/Low, Corporate Action etc.

To View Most Active Securities:

1. Click **Market > Most Active Securities**. Alternatively, press **Shift + F10** or click toolbar icon ( ).
2. Select Exchange and Instrument Type
3. Select from All or Index specific.
4. Select Value or Volume.
5. Select number of scrips (Default 10 scrips).
6. Select the Price Range
7. Press Refresh.

Most Active Securities displays information under following headings:

- Code
- Scrip
- Close(Previous Day's)
- Percentage
- Price (LTP)

## Indian Markets

Index information of both NSE & BSE are given in two views. One is Short View and the other one is Long View. All the important Indices can be constantly monitored keeping required parameters on screen. Long View will give same information but will take up more space as all the parameters are shown. Index can also be graphically represented both current view and Historical Chart. If a separate Price View is needed which is based on a specific index than right clicking on that Index and choosing “Create New Price View” will create new Price View based on that index.

View Index Information:

Click Market > Indian Markets > Short/Long View.

The Index Information window will display the following details:

- Name
- Value
- Trend
- Change
- Percent
- High
- Low
- Open
- Close
- Yearly High
- Yearly Low
- No. Of Upmoves
- No. of Downmoves
- Market Capitalization

## Radar

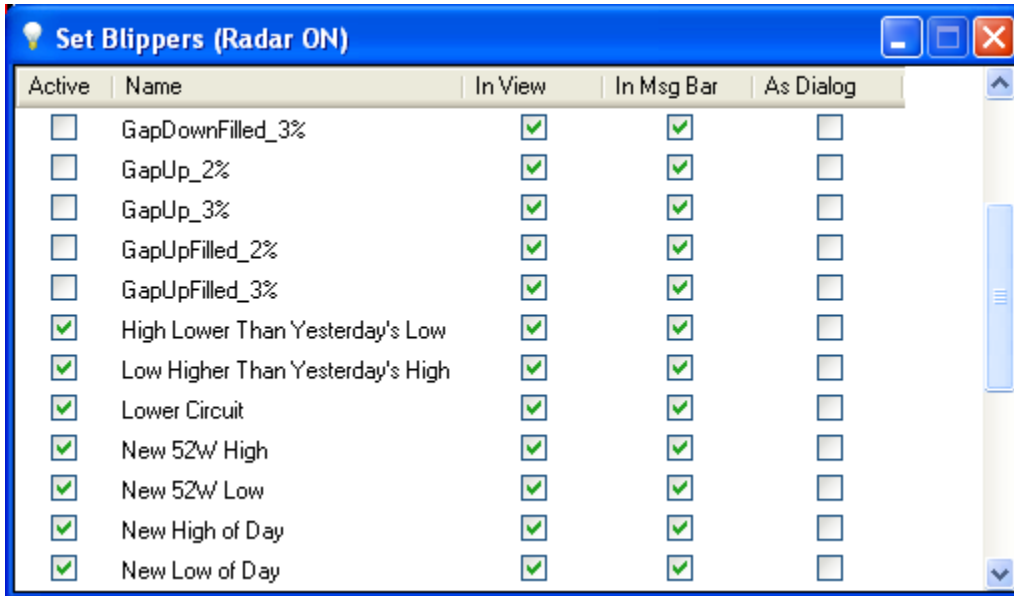

This is one of the most useful and innovative feature of Money Maker. It gives alerts on continuous basis on predefined alerts in a separate message window known as Blip View. These alerts are known as “BLIPS”. Some basic alerts are provided in the system such as New High or Low of the Day, Percentage Change > 3%, Percentage Change<-3% (Degree of % can be modified/changed) and many more. Whenever scrip makes a new High than a Blip will be fired displaying in Blip View a message with Time stamp stating 'Scrip\_ New High of the day\_LTP'. Facility is also given to create new Blips as per requirement. Multiple Blips view also can be opened based on price views, Blips scrips, etc.

To view Radar Blips:

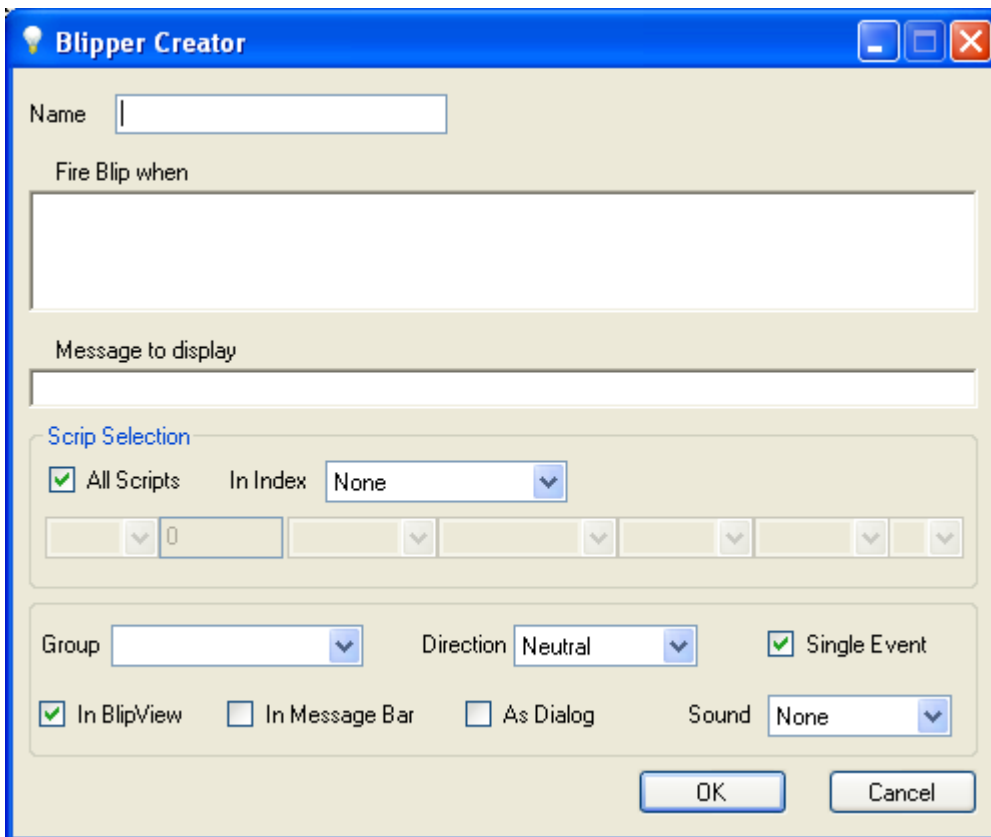

Click Market > Radar.

This will open a new window showing:

- **Start** : Clicking will Start Radar and Blip will be displayed in Blip View
- **Stop**: Clicking will Stop Radar.
- **Show Blips (Ctrl + B)**: Clicking will display Blip View wherein blip fired messages will be displayed.
- **Blippers**: Clicking will open ‘Set Blippers’ window where predefined blippers which are previously downloaded (**File > Download > Misc > New Blippers**) are shown. For activating click on the Box in Active column and also choose from Three options given (any/all) how the message is to be displayed (1) In View (2) In Msg Bar (3) As Dialog. Right clicking on any blipper will open new window wherein options are given :
  - (1) Delete : For deleting Blipper
  - (2) Add New Blipper : For adding new blipper as per requirement
  - (3) Copy and Modify : Will copy the existing blipper and modify the same as Per requirement keeping original blipper intact.
  - (4) Modify: Will modify existing blipper.
- **Create Blipper**: Will create new blipper.

The bottom status bar shows system information and a taskbar with the start button and several open applications.

### Place Buy Order

Placing of Buy orders can be done within the Price View. The Blue background implies a Buy Order Entry. Buy Order of the scrip highlighted in price view will be displayed on pressing of F1 or (+). You can change Exchange from drop down menu. Option is given in preferences to invoke Best 5 screen along with Buy/ Sale Order screen. This is one of the most User Friendly option provided by Money Maker as two separate screens of Best 5 and Order screen need not be invoked. Also choosing of RL/SL is given in sequence for faster Order processing (default is RL). Minimum lot quantity comes by default.

Place Buy Order:

1. Highlight the security in Price View.
2. Click Order > Place Buy Order or press F1 or press (+) or click toolbar icon.
3. The Buy Order Entry in **Blue color** is displayed.
4. Select appropriate values and order type.
5. Click **Submit** or press **Enter**.

Order screen can be invoked from any other screens.

Pressing **F1** on **Client code** in Buy/ Sale Order entry window will open Mini help window displaying Client code, his mobile no. and name etc.

### Place Sell Order

Placing of Sell orders can be done within the Price View. The Red background implies a Sell Order Entry. Sell Order of the scrip highlighted in price view will be displayed on pressing of F2 or (-). You can change Exchange from drop down menu. Option is given in preferences to invoke Best 5 screen along with Buy/ Sale Order screen. This is one of the most User Friendly option provided by Money Maker as two separate screens of Best 5 and Order screen need not be invoked. Also choosing of RL/SL is given in sequence for faster Order processing (default is RL). Minimum lot quantity comes by default.

Place Sell Order:

1. Highlight scrip in Price View.
2. Click Orders > Place Sell Orders or press F2 or press (-) or click toolbar icon ( ).
3. The Sell order Entry in **Red** color is displayed.
4. Select appropriate values and order type.
5. Click **Submit** or press **Enter**.

Order screen can be invoked from any other screens.

Pressing F1 on Client code in Buy/ Sale Order entry window will open Mini help window displaying Client code, Mobile no., Client name etc.

## Order Book

Order Book displays information of orders placed and status of the order for a particular scrip or for all instruments. Order Book is used for viewing, modifying and cancelling Buy/Sale orders. It gives details of partially filled order with quantity filled and remaining.

The screenshot shows the 'ORDERS BOOK' window with a table of pending orders. The table has columns for Order Number, Exchange, Symbol, Client ID, Series, Strike Price, Option Type, Book Type, Buy/Sale, Quantity, Price, Status, LTP, Trigger Price, Disclosed Quantity, and Last Modified. The data rows are as follows:

| Order Number | Exchange | Symbol    | Client ID | Series | Strike Price | Option Type | Book Type | Buy/Sale | Quantity | Price   | Status  | LTP     | Trigger Price    | Disclosed Quantity | Last Modified |            |

## Order History

It shows Transaction Sequence per order giving Exchange Order No.

View Order History:

1. Click Orders > Order History or press F7.
2. Entering Exchange Order No in upper box and pressing Enter will display full transaction sequence for that order

The screenshot shows a window titled "Transactional Sequence" with a blue header and a red close button. Below the header is a form with three input fields: "UserID", "User Order No", and "Exchange Order No". The "Exchange Order No" field contains the value "0" and has a red "X" icon to its right. Below the form is a table with two columns: "Time" and "Action". The table is currently empty.

| UserID | User Order No | Exchange Order No |
|--------|---------------|-------------------|
|        |               | 0                 |

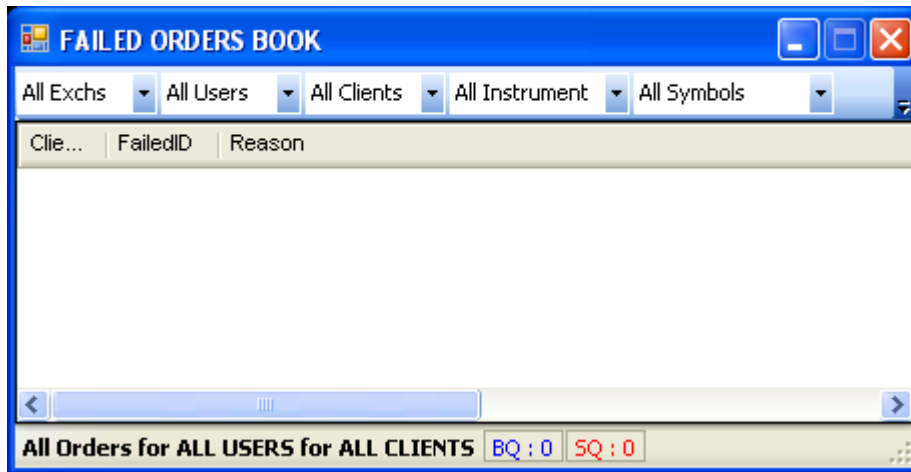

| Time | Action |

### Add Scrips To Price View

This function helps in selecting and adding multiple scrips to a Price View.

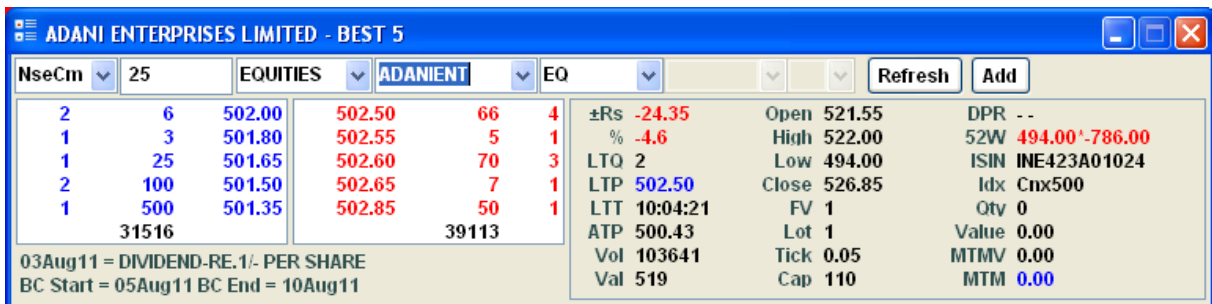

Click ScripMasters> Add Scrips to Price View

Select **Exchange and Instrument Type** from Drop down menu, choose Blanc field in Option Type and press Search. This will show all the scrips in the ‘Select Securities to add to Price View Box’.

**Select the ones that you want to add to Price View by clicking in the box in Selected field** (First Column).After all the scrips are selected click Add to Price View which will add all the scrips selected to the current Price View in use.

**Second method of Adding Scrips to the Price View** is through opening of **Best 5 (F5)** screen, selecting desired scrip from Drop down menu and clicking 'ADD'. This will directly add the scrip selected to the Price View.

And lastly you can straight away choose the scrip in the Filter Bar given on Top of Price View and clicking Enter will Add that scrip to the Price View.

### Index Constituents

This feature shows details of Scrips in different Indexes and additionally gives information of indexes in which a Script participates with total number of scrips in Index. Ex: If Nifty is selected from Drop down menu and entered than all the scrips covered under Nifty will be shown. The total number of scrips covered under Nifty is shown in heading given in ( ). Additionally if the scrip is covered under any other Index that Index is also given.

View Index Constituents:

1. Click ScriptMaster> Index Constituents.
2. Select **Index** from Drop down menu and press **Enter**.
3. Index Constituents window is displayed with following details:
  - Exchange
  - Symbol
  - Series
  - Participant In
  - Code

The screenshot shows a window titled "Index Constituents for Nifty (45)" with a dropdown menu set to "Nifty". Below the menu is a table with the following columns: Exchange, Symbol, Series, Participant In, and Code. The table lists 20 different stock symbols and their associated exchange codes, series, and the indices they participate in.

## Reminders

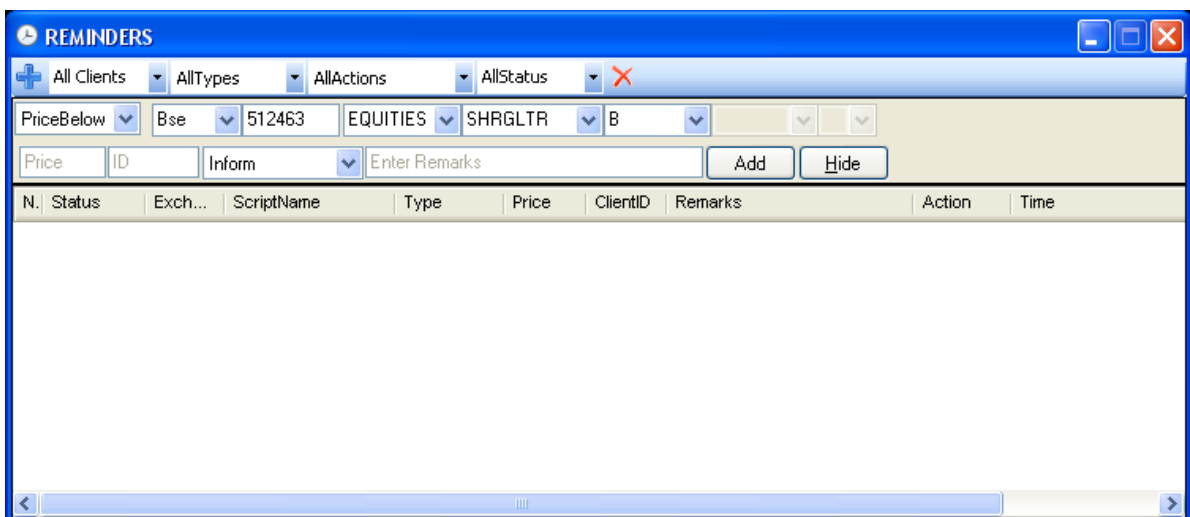

This is one of the most useful tools of Money Maker. Client wise Reminders for Date/Time, Price Below and Price Above can be set for unlimited scrips. If a reminder is set for informing a client if & when a Scrip price goes above or below a certain price, than a Remainder will be flashed on screen either in Simple message or in Dialog Box as & when on happening of that event. Or a client can be reminded at future date at specific time.

View Reminders:

Click Tools > Reminders or press Ctrl + Alt + R

For adding a new reminder:

- Click on +
- Choose from Drop down menu : Price Below or Price Above or DateTime
- Choose Exchange from Drop down menu : Nse, Bse, or NseFO
- Choose Instrument (Ex: Equities, Debentures, FUTIDX, and FUTSTK etc.)
- Enter Price ( at which Remainder is to be Set)
- Enter Client ID
- Choose from Drop down menu event for which Remainder is set Ex: Buy, Sale etc.
- Enter Remarks if any
- Click Add.
- In case of DateTime reminder, choose date from Drop down menu and set Time, enter Client ID Purpose and Remark and click Add. A Message will be generated at that time for informing Client.

All Pending Remainder will be shown as 'Pending' in Status column whereas Reminders which have taken place will be shown as 'Reminded'.

**SPAN**

Click Tools-Span-Manage Files. Click on download which will automatically download latest SPAN file. If Span file is stored in your computer than use 'Load'. Choose the client code and click on load positions. This will display SPAN Margin applicable on all positions and also individually. Now if Margining for any additional position is needed than click on Add Scrip and select Scrip from drop-down menu enter quantity (with -prefix for sale position) and click OK. This will show total Margin applicable on all positions.

### Lock WorkStation

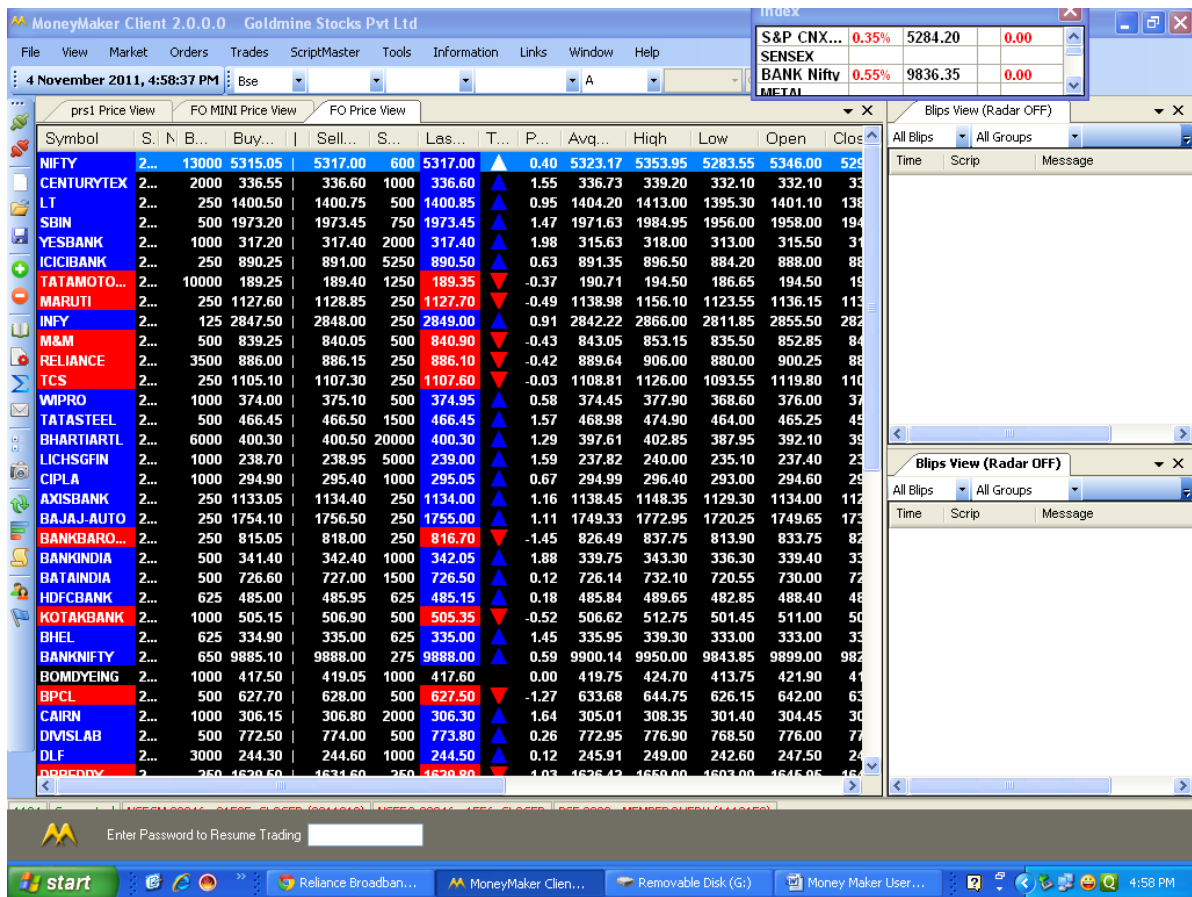

Lock Workstation is a tool to prevent unauthorized access to the workstation which can be activated manually or if the workstation is idle for a fixed time-period.

For Locking Automatically:

In Tools-Preferences-General, if Auto-Lock workstation after (minutes) option is activated by fixing Time period in Box given, than workstation will get locked (if inactive) after that time period has elapsed.

For locking manually click Tools > Lock Workstation or press Ctrl + Alt +L.

Workstation will get unlocked only after current Log-In password is entered.

## Update

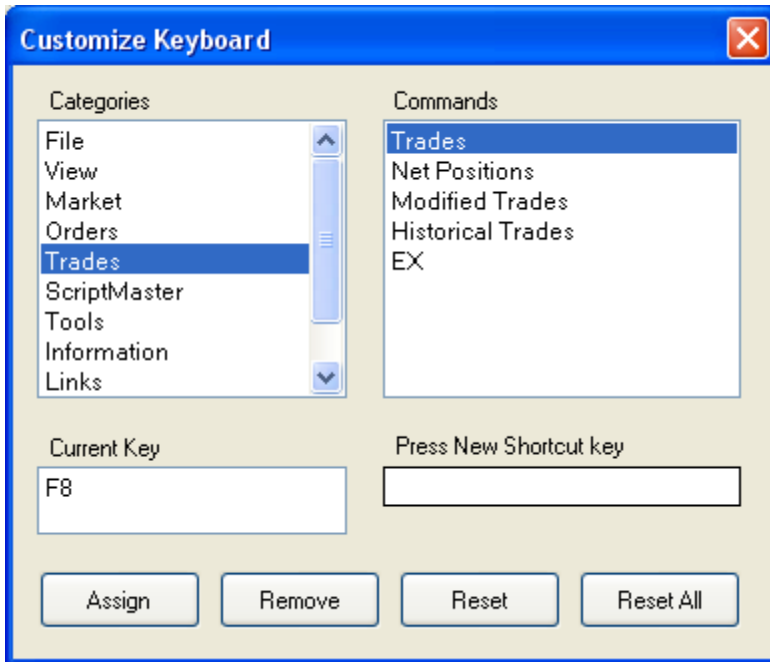

Money Maker has done away with historical methods of updating program of inserting CD and then updating as guided by programmers. If any Update is given by Administrator the User will simply have to remain logged in till updation is completed and then login again. All the previous Price views and user preferences are retained. If by chance the program is not updated at that time than at next login the program will update itself and then only login will take place.

Click Tools > Update

If no updates are available than the following message will be displayed:
